

# Surveying & Spatial Sciences Institute (SSSI) NSW update

Presentation by Ross Johnson  
SSSI NSW Committee member  
17/10/2013

# What is SSSI ?

- The Surveying & Spatial Sciences Institute (SSSI) is the national peak body catering for professional people who make up the spatial information industry. SSSI gives a voice to the members of the spatial community in both the national & international arena. SSSI is vendor neutral.

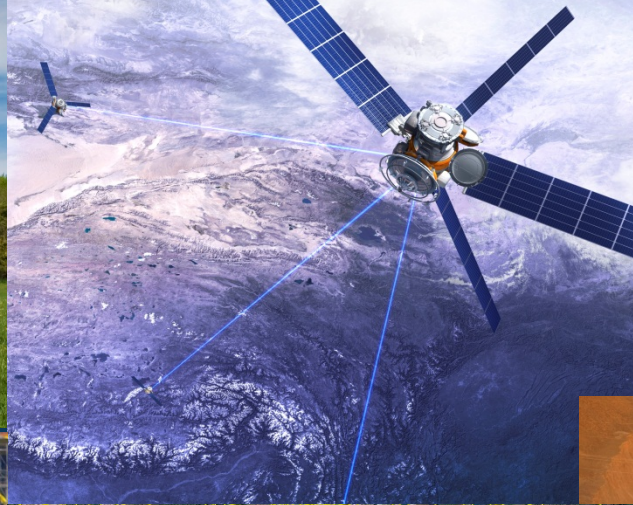

# SSSI comprises 5 Commissions:

# SSSI's 5 Commissions each has their own Chair

# NSW Regional Committee

- We organise & manage:
  - Awards, regional dinners & presentations
  - Events (forums, workshops, seminars, webinars, online networking, social functions)
  - Continuing Professional Development (CPD) points
  - GISP-AP Professional Certification application process
  - Professional comment on spatial industry initiatives
  - Free membership for full time students

SSSI NSW has prepared a submission to  
the Draft NSW Spatial Intelligence Strategy

[http://engage.haveyoursay.nsw.gov.au/nsw-  
location-intelligence-strategy](http://engage.haveyoursay.nsw.gov.au/nsw-location-intelligence-strategy)

Until 25 October 2013

# SSSI members receive Position Magazine & Geo Message

The Surveying and Spatial Sciences  
Institute

## Geo Message

October 2013

### Welcome to SSSI New South Wales

The Surveying & Spatial Sciences Institute (SSSI) is Australia and New Zealand's peak body representing the interests of surveying and spatial science professionals, combining the disciplines of land surveying (LS), engineering & mining surveying (EMS), hydrography (Hydro), remote sensing and photogrammetry (RS&P), spatial information and cartography (SIC).

The SSSI NSW region provides members with an active network within which to maintain professional knowledge and technical skills, as well as to meet fellow like-minded professionals and to share experience in the spatial profession. This is a region run by members for the benefit of members.

If you are not a SSSI member and would like to know about events and activities being held in NSW feel free to join our mailing list.

# SSSI NSW Facebook

The screenshot shows the Facebook profile of the Surveying & Spatial Sciences Institute (SSSI) NSW. The header includes the SSSI NSW logo, a cover photo of a city map, and the page name. Below the header, there is a post from the SSSI NSW page about location-based services, featuring a map and text about the benefits of open data. To the right, a list of users who liked the post is visible, including SSSC Organisation, SSSI Spectrum Magazine, ViolenMap, and others. The bottom of the page shows another post from SSSI NSW about a mapping event in North Sydney.

Read to know more about "Location-based Services" :)

**The Next Generation of Location-based Services**  
The main motivation of governments in sharing data with the public is to stimulate economic growth by enabling the creation of new products. One of the areas that could benefit from open data initiatives is that of location-based services (...)
