

# Community Energy Opportunities

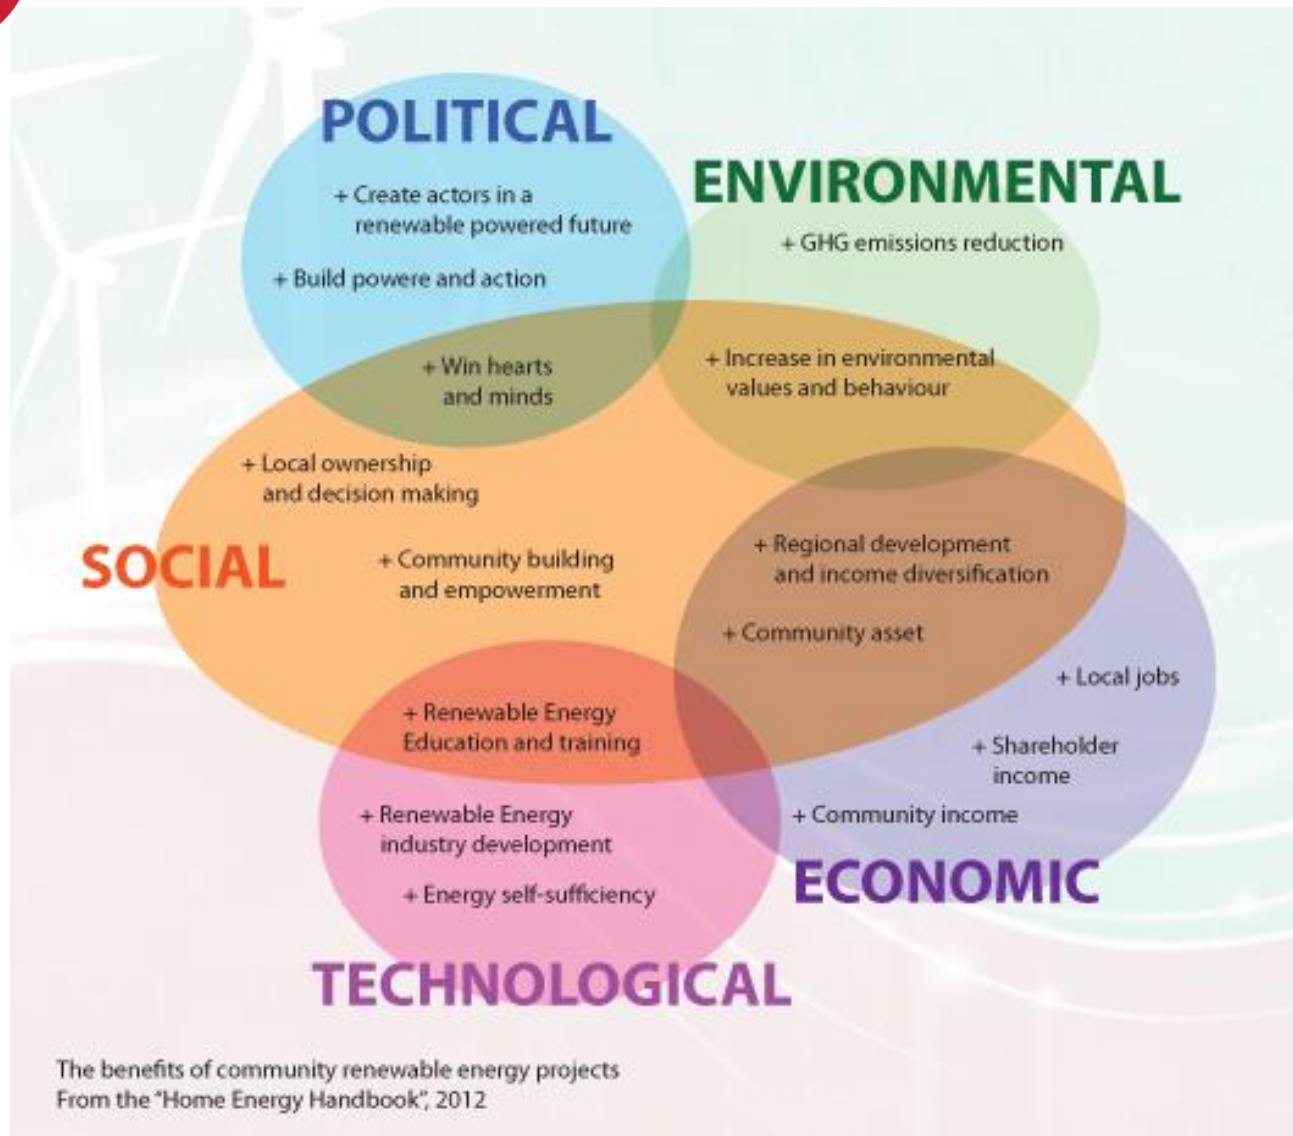

# Operating Australian Community Energy projects

# Community Investment models – why?

# Community Investment Options

- A community organisation installs a system and sells electricity to the host site
- A solar system is installed through a loan from a community organisation
- A community organisation acts as an electricity retailer.
- The ATA's  **SUNULATOR** tool can help estimate viability for business and the community group

# Australia's first community energy retailer

Meet Your New  
Energy Supplier:  
YOU !

**eNOVA**  
It's YOUR Energy Company™

**COMMUNITY  
OWNED  
RENEWABLE  
ENERGY**

**Opportunity:**

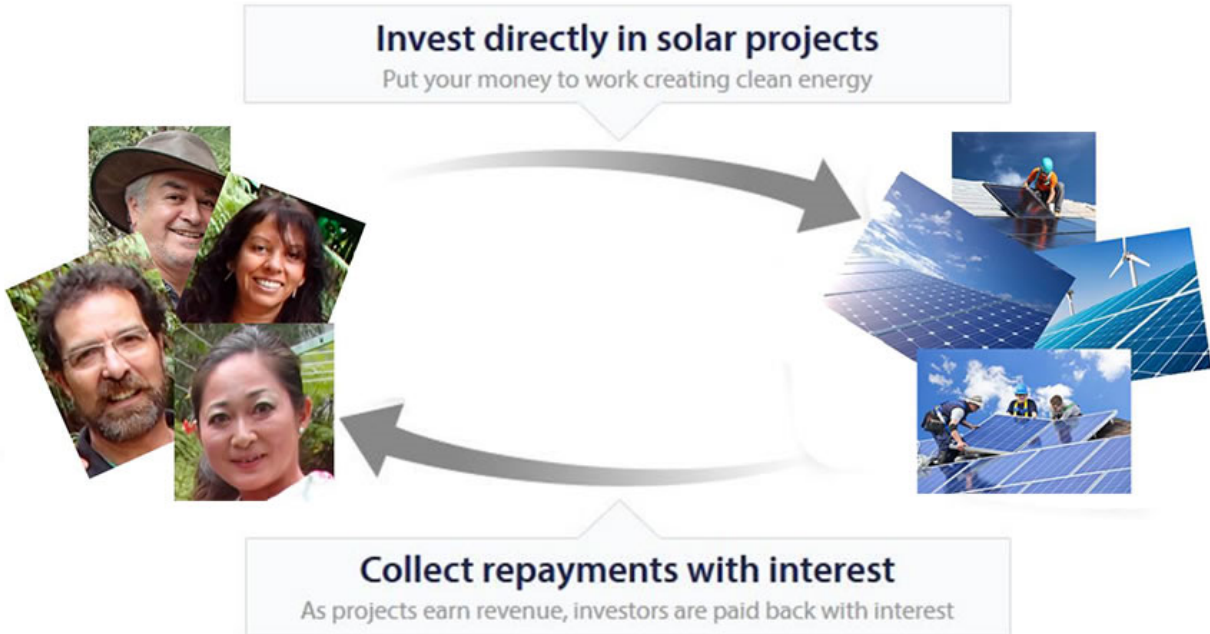

Be Part of genuine change  
movement for Australia in  
renewable energy

Keep the profits from  
YOUR electricity spend in  
YOUR community

Take power over your future  
- economic, social and  
environmental.
